Lappset Interactive

– Bringing a new dimension to play

At Lappset Interactive, we're redeveloping play experiences by creating innovative products that combine gaming with outdoor activities. Our playsets are of the highest quality and are designed to be interactive and inclusive. They include options such as Sona, a dance and play arch; Toro, a dynamic sports arena; Fono's DJ booth; Memo's educational play pillars; and Sutu's interactive ball wall, which can help improve your soccer skills. And new to our collection is Luna, the little sister of Sona for indoor dance and play. Each piece of equipment is unique and offers experiences that are perfect for any target group.

The gaming world offers imagination, learning, fun, variety, the excitement of reaching the next level, and the possibility of adapting levels to an individual player. The physical world brings physical activity, social interaction, community involvement, and the rewarding feeling of being outdoors. By combining both, we unlock a whole new level of fun, the best of both worlds! We can truly activate all.

Our interactive playsets offer play for all:

- ✓ **Inclusive and intuitive**
- ✓ **For people of all ages and abilities**
- ✓ **Built to endure all types of weather!**
- ✓ **Interactive playsets with a solar option**

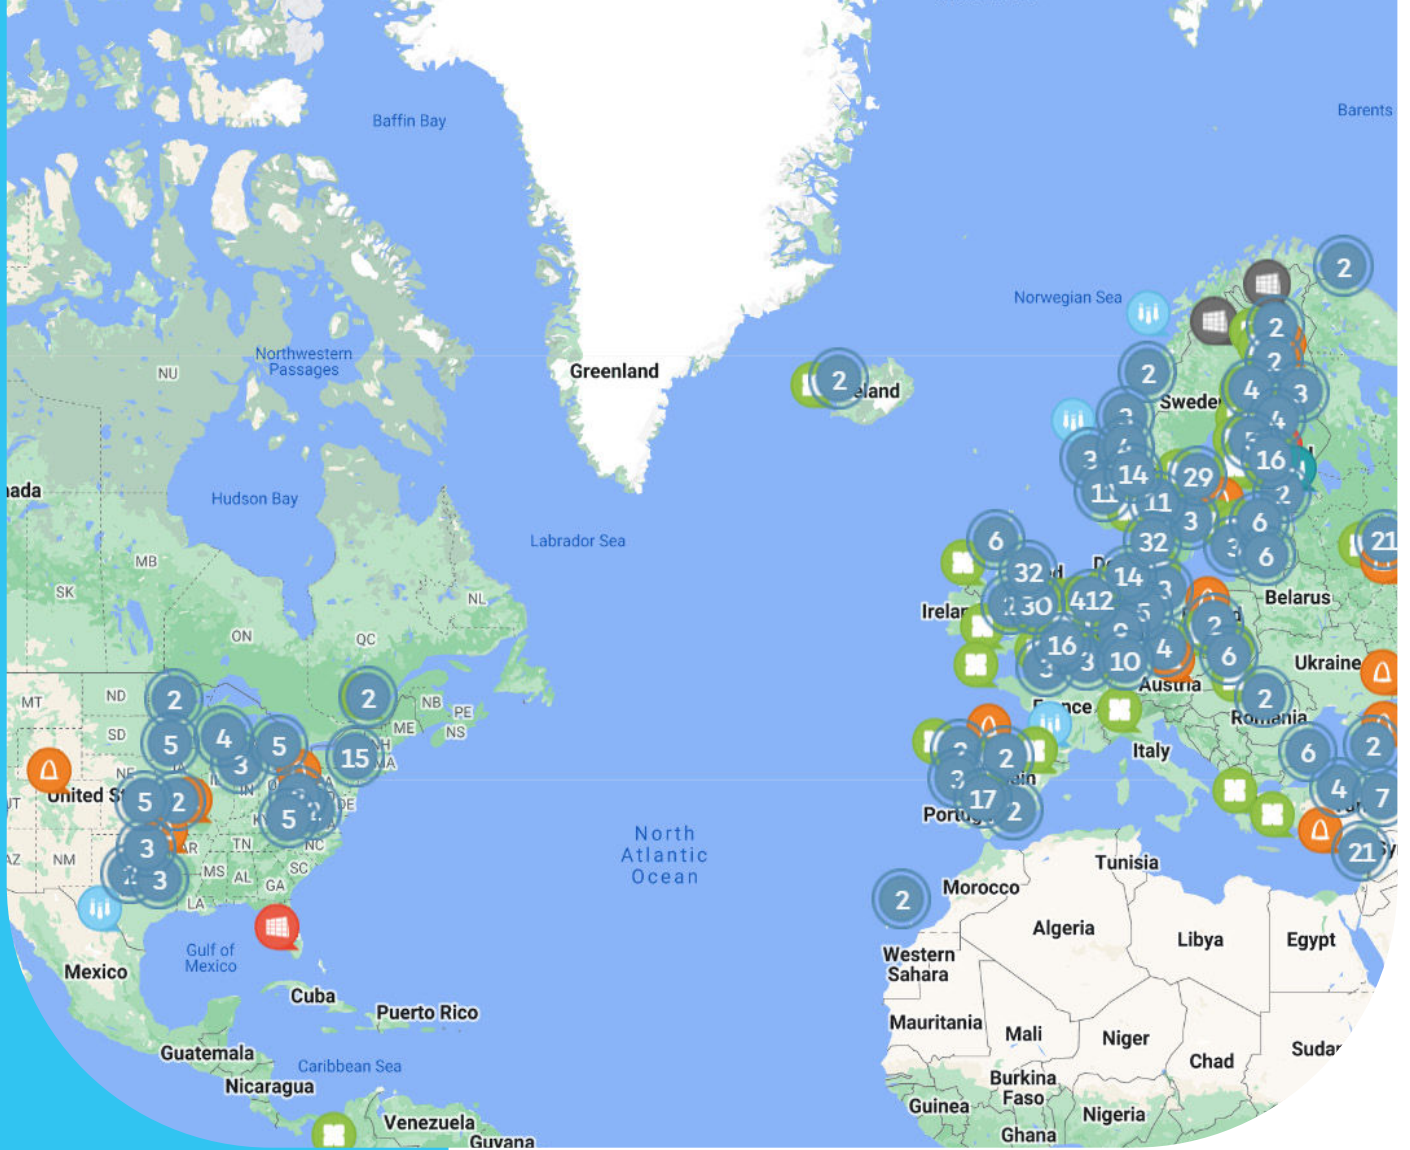

At Lappset, our mission is to improve the world's well-being by creating inspiring playces that stretch the imagination, foster learning, respect the environment and encourage activity for all mankind.

Interactive playsets – play that encourages exploration

Is the play industry keeping pace with innovation? In the era of digital dominance, we're not merely asking the question—we're reshaping the very landscape of play.

Through the use of innovative technology, we have created play concepts that add play value to the playground—building a bridge between gaming and outdoor play using the best of two worlds.

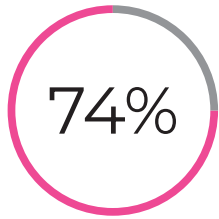

In 2007, we began integrating positive aspects of video gaming into traditional playgrounds to invite everyone

to socialize, have fun, and be active together. The result: over 1200 interactive playgrounds worldwide, utilized daily.

Our internet-connected products offer various advantages:

- The ability to remotely control settings
- Access to play statistics
- Remote maintenance capabilities
- A continuous supply of new games to keep the playground fresh and exciting.

Why interactives?

Less than one hour of outdoor play per day is observed among children aged 5 to 12.

Source: The Guardian, Friday March 25, 2016

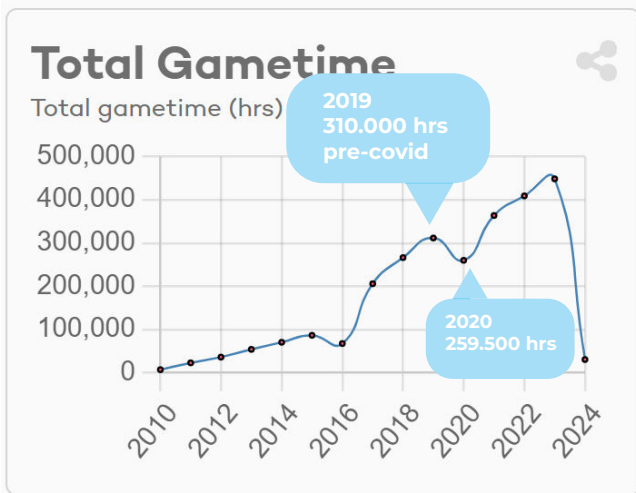

The prevalence of obesity was 19.7% and affected about 14.7 million children and adolescents.

Source: Center for Disease Control, 2017-2020

At Lappset, we believe in the importance of play, which is crucial for personal development at all stages of life. That's why we've invested in innovative concepts to encourage everyone to play and stay active. Traditional playgrounds, parkour, freerun collections, and concepts for seniors are important, but we also want to use technology to enhance play value and bring new possibilities for fun and learning. We aim to get children and families outside playing together. In today's rapidly changing world, the demands are higher, and the need for innovative playground equipment is more critical. Above all, our customers expect us to deliver something extra.

While traditional playgrounds and sports fields undeniably serve a valuable purpose that should be maintained, interactive play offers a unique appeal. It can attract a group of children who might not naturally gravitate towards exercise and outdoor play, providing an enticing alternative for them.

COVID lockdown “play dip”

Lappset Interactive's effectiveness stems from its online connection, serving as a vital information hub in the digital era. Online Platforms play a pivotal role in collecting essential data on our products, capturing insights into popular games and daily usage hours.

This capability lets us stay attuned to our players' behavior in the dynamically evolving world and make necessary adjustments. The image on the left illustrates a comprehensive overview of worldwide gameplay time. In 2020, we observed a decline in play hours, followed by a remarkable surge post-COVID.

Read more about the five design principles for our interactive playground equipment: www.lappset.com/article/interactive-design-principles

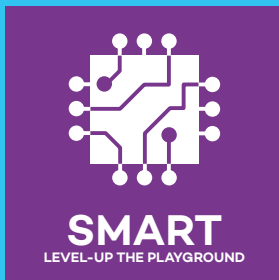

Fun

“Please, can I go one more time?” is a phrase you might hear in a playground from a child to a parent. We like to include the ‘one-more-time-effect’ in all our designs. **Fun is a top priority because if it's not fun, no one will play, and you can forget about the other four principles.**

Active

We design our products to get people active in a playful way that is good for their body and mind. We spend so much of our time in a seating position, also known as the “sitting disease.” Research showed that 3 out of 4 children in the UK spend less time outside than prisoners do.

Smart

We combine gaming elements and outdoor play to create A New Way to Play. Using innovative technology to add play value the playground and create magical play environments. **Upload new cool features and games to the play equipment for the users to discover.** The play adjusts dynamically to the user, and the software can be adjusted to fit the players. We use the data from our playsets to continually improve all our locations.

Outdoor

We believe in the power of healthy, adventurous outdoor play. **Dancing outside in the rain with your friends, or playing football on a sunny day.** That's why we design all our interactive products to last outside, resistant against weather and vandalism. While we encourage outdoor play, all of our interactives can also be installed inside.

Creative

Our focus isn't on prescribing play but on offering a multitude of possibilities. We aim to give players '1001 ways to play,' letting them explore and discover on their terms. Interestingly, it's usually the grown-ups asking about 'how the game should be played.' We don't lay down strict rules; instead, we provide subtle hints and **the freedom for players to create their own rules and ideas, creating genuine magic.** Our products are user-friendly, requiring no instruction signs.

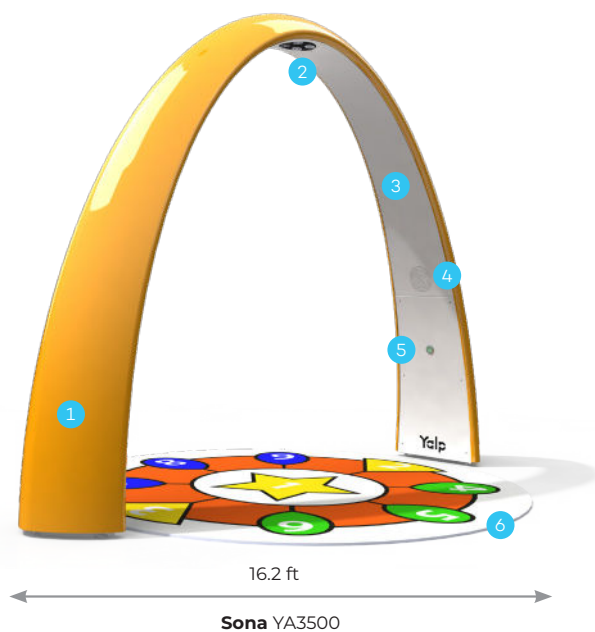

Lappset Sona

The Sona brings an exciting, inclusive, and positive gaming experience to a wide audience. Designed for inclusivity, it makes playing together accessible to everyone. Sona's intuitive design responds when you move underneath it. The press of a button unleashes a wide variety of games, ensuring there's something for everyone.

The Sona provides hours of fun for all ages, and its robust steel frame

makes it durable for outdoor use, ensuring years of entertainment. It's versatile and suitable for various settings like communities, public parks, and elderly care homes, catering to diverse users.

The Sona enables interactive play for 10 or more players of all ages. Through the online platform, owners can download different games, from cognitive challenges to fitness activities, offering a range of experiences.

- 1 Eye-catching arch (different colors available)
 - 2 **Motion detection** sensor and light module to extend play hours
 - 3 Internal steel construction
 - 4 Loudspeaker
 - 5 Button (Push and play!)
 - 6 No impact surface needed
- ((())) Internet connection for service, new games and updates

Lappset Sona and Its Unique Features

- **Interactive Motion Detection:** The Sona operates through a motion detection sensor, providing an interactive and engaging play experience as it responds to movement.
 - **User-Friendly Interface:** A simple button press initiates the play. You will receive a brief explanation of the game you're about to play, such as "Stand still when the music stops!" or "Jump on the number that rhymes with door."
 - **Inclusive Design:** With a barrier-free entrance for easy access, the Sona is suitable for everyone. The Sona offers play from toddlers to seniors, and allows for multigenerational play.
 - **Unstructured play:** There are no rigid rules, allowing users to play however they like. This flexibility encourages multigenerational play, fostering social interaction and family bonding.
- **Educational Engagement:** Some games involve solving math problems and promoting learning in an entertaining way. This feature can facilitate intergenerational activities, like solving math problems with grandparents.
 - **Adaptable Pace:** The pace of the games can be adjusted to meet the needs of users, ensuring that it accommodates various age groups and skill levels.
 - **Soundscape:** The Sona's design is optimized to create a soundscape while playing underneath the arch. It's a clever design that minimizes noise pollution.
 - **Landmark:** With its iconic Dutch design, the Sona is a true landmark and central gathering point in any park or playground. Standing at a height of almost 13 feet, it stands out without obstructing the view of the park.

Lappset Luna

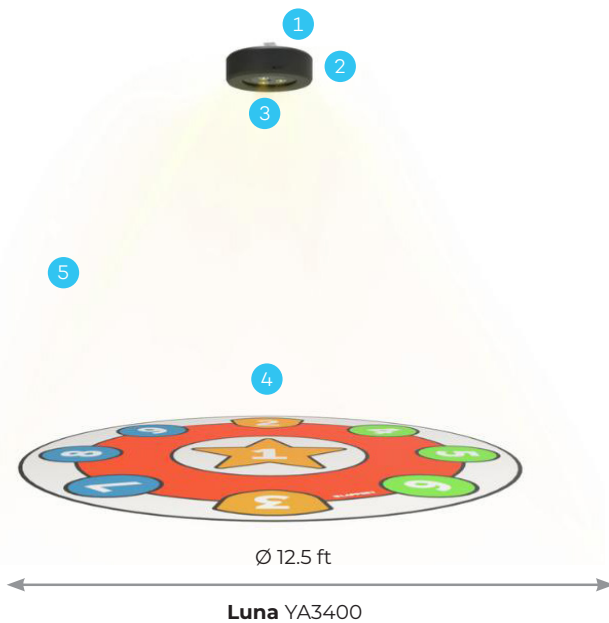

Introducing Lappset Luna—an inclusive playset that adds fun to any indoor space. Luna responds to every movement through a movement detection sensor from above, just like its big sister, Sona! It fosters collaboration, inviting everyone to dance, play, and explore together.

Luna works in various spaces, be it indoor play centers, YMCA, shopping malls, leisure centers, restaurants, hotels, or schools. Luna has barrier-free entrance, which means it is easily accessible to everyone. It is also ideal for creating

high play density, supporting ten or more players simultaneously. Luna ensures endless fun for large groups in minimal square footage.

Unlike projector-based systems, Luna uses sound to create an immersive and interactive gaming experience and encourages social interaction. Which means that you can place it anywhere you like without needing a dark area, although it's still possible to do so.

- 1 Several standardized mounting options for any indoor solution
- 2 Electronics safely tucked inside the enclosure
- 3 Light spots and activity sensor above the play floor
- 4 Open play space, durable and easy to access
- 5 No button! Activate a game by stepping on the floor
- Internet connection for service, new games and updates

Lappset Luna and Its Unique Features

- **Motion Detection Technology:** Luna operates through a motion detection sensor, responding to movements below it.
- **Game Variety and Engagement:** Luna offers a diverse range of games, from educational to imaginative, enhancing engagement through activities like dancing and movement.
- **Multigenerational Play:** Suitable for all ages, from toddlers to seniors, Luna encourages multigenerational play, creating a shared and enjoyable experience for different age groups.
- **Inclusive Design:** Luna is designed to be inclusive with a barrier free entrance, ensuring easy access for users of all abilities. The pace of the games can also be adjusted to meet the needs of users, accommodating various skill levels and preferences.

- **Unique Interaction Method:** Luna doesn't project images on the floor like projector-based systems. Instead, it relies on voice commands, creating a face-to-face interaction and an immersive gaming experience.
- **Flexible Placement Options:** Luna can be placed anywhere without needing a dark area, providing flexibility in choosing its location while still offering the option for a darker setting if desired.

Lappset Memo

With Memo, educational play has been taken to the next level! Memo features seven pillars each equipped with a 360° LED touch screen, creating an engaging and interactive display from every perspective. Its games not only entertain but also encourage social skills such as teamwork. Moreover, through constant movement, Memo also promotes healthier habits.

The Memo provides the opportunity to customize your learning experience. Incorporate a custom quiz about your local history, learn

the Greek alphabet, participate in a science quiz, create your own stories, or even learn how to count in binary. The games support 21st century skill development, STEM learning and active play. Its games not only entertain but also encourage social skills such as teamwork and, through constant movement supports healthier habits.

Children love exploring and playing, making Memo a hit for schools, kindergartens, family entertainment locations, retail stores, and municipalities.

- 1 Choose a game at the main pillar (Push and play!)
 - 2 Powder-coated stainless steel construction
 - 3 6 play columns in a circle of 8m/20ft diameter
 - 4 360-degree touch screen
 - 5 Playing surface (customizable & optional)
- «» Internet connection for service, new games and updates

Lappset Memo and Its Unique Features

- **Interaction Design:** The Memo features a distinctive design with seven pillars, placing the main computer at the center and controlling six surrounding pillars, providing a unique and engaging interactive experience.
- **User-Friendly Interface:** The play button on the main pillar can be pressed to choose among the 50 interactive and playful games. (The selection is continuously growing.)
- **Gaming Variety:** Memo stands out with its extensive collection of games, including educational games covering subjects like math, science, language, and more, providing a rich learning experience. Memo also offers active games such as Tag, Switch and storytelling games, encouraging physical activity and emotional

expression in addition to learning.

- **Interactive Gameplay:** With the main pillar guiding the way, players can explore the game by using the surrounding pillars to interact with the Memo. The Memo reacts based on player actions, creating back-and-forth interaction.
- **Holistic Learning Approach:** Memo integrates physical activity with educational games, aligning with studies that suggest a more effective learning experience when the body and mind are active, enhancing retention and engagement.

Lappset Outdoor Classroom

The Outdoor Classroom is designed to help educators, schools, students, and parents who want to include the Lappset Memo in their lessons.

This includes a 200+ pages in a lesson planner that makes it easy to find what you need. The planner includes instructions, lessons, worksheets, inspiration, and shows the educational values of every game and lesson.

With the Lappset Outdoor Classroom, we aim to create learning environments that bring new and recognizable school elements to playgrounds. Students can move around, enjoy fresh air, and still learn. You can create a place where students learn classically with a teacher in front of the classroom. The products stimulate everyone to move more and promote interaction between students and teachers.

Example Layout Lappset Outdoor Classroom

Multifunctional Stage

The modular classroom elements complete the Outdoor Classroom; they can be used multifunctionally. Their primary purpose is as a stage to sit and work in a circular classroom setup, with chalkboards to communicate back to a teacher and students—the chalkboards are a nice contrast, bringing technology and old-school tools together outdoors!

Activity Zone

The Lappset Memo Interactive play pillars is our most complete interactive concept with all the unique and educational content and games already created for it.

Lappset Sutu

Imagine if the goal could talk back - would you stay to play a little longer? Meet Sutu—an interactive playset merging advanced technology with user-friendly game designs. Perfect for public areas, commercial venues, or sports associations, Sutu enhances player proficiency for all levels.

Sutu's ball wall features 16 illuminated LED panels powered by impact-sensitive sensors, offering a variety of challenging games to enhance agility, speed, and accuracy.

Whether you seek beginner-level enjoyment or advanced challenges, everyone will relish the interactive experience. Sutu games offer precision skill improvement or let you set personal records by hitting as many targets as possible within a time limit. Our app adds excitement, enabling global competition participation and making your interactive sports experience dynamic.

- 1 Loudspeakers for multi-directional game feedback
 - 2 Choose a game (Push and play!)
 - 3 Vandalism-proof LED panels
 - 4 Powder-coated steel construction (different colors possible)
 - 5 Radar sensor
- (()) Internet connection for service, new games and updates

Lappset Sutu and Its Unique Features

- **Variety of Games:** With just a push of a button, users can choose from a wide selection of games, ranging from precision, reaction, tactics, to open-ended games, ensuring there is something enjoyable for everyone.
- **Impact-Sensitive Design:** The Sutu is designed to withstand rapid impacts from a variety of balls, including soccer, handball, or tennis. Equipped with impact-sensitive panels, the Sutu seamlessly adjusts to the impact and size of different balls, enhancing its versatility for a wide range of sports and recreational activities.
- **Speed Measurement Feature:** The Sutu has a radar that measures the speed at which the ball comes at it adding an extra layer of interactivity and feedback to the gameplay.
- **High-Intensity Workouts:** Perfect for practicing skills with high-intensity

games, the Sutu ensures that users get a great workout.

- **Versatility for Teamwork:** Beyond individual play, the Sutu encourages collaborative teamwork. Even parents and children can engage in interactive gameplay, making it a fun activity.
- **Dynamic LED Lights:** The Sutu is a unique playset that immediately catches your attention with its vibrant LED lights. Even in idle mode, the lights move or display the time of the day.

Sutu and Fox Sports

The Sutu interactive ball wall is featured three times per episode, throughout the entire first season of “Eretribune” (translated as “Grand Stand”) on FoxSports studios, in prime time on Dutch television.

Celebrities, professional football players, audience members, and the presenters all take part in the interactive ball wall game, competing with each other to achieve high scores. The audience member with the highest score

wins at least two tickets for an upcoming football match. This segment is great fun and really tests your stamina, as the games are fast-paced and take place in a small play area, requiring you to work hard to stay in the game. You can see how professional athletes are sweating to keep up with the intense gameplay.

International Soccer Play

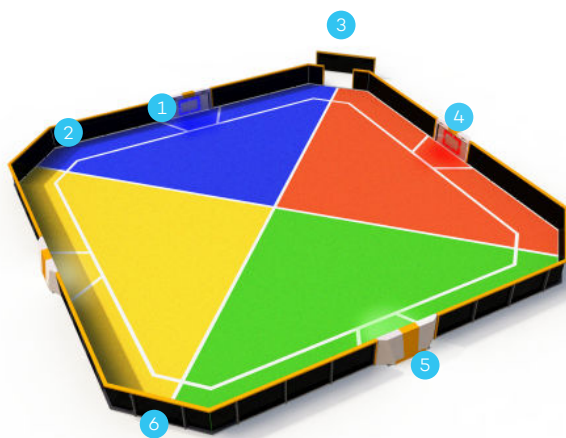

Lappset Toro

Why is a sports arena always rectangular with just two goals? Introducing Toro, a groundbreaking interactive sports arena that defies tradition. Toro's vibrant design delivers an exhilarating game, keeping everyone on their toes.

The compact layout, featuring sloping corners and four interactive goals per side, ensures constant ball contact and an immersive experience from start to finish. Developed in collaboration with Olympic gold-medal-winning coach Marc Lammers,

Toro challenges players while guaranteeing a blast.

With fast-paced action, strategic plays, and a demand for reactive skills, Toro pushes players to new physical limits in every session. Ideal for municipalities, sports facilities, schools, park and recreation, holiday resorts and family entertainment centers, Toro provides a unique solution for teenagers, offering something different from the typical skate ramp or basketball court.

Can be tailored to suit your specific site requirements

Toro YA3805

- 1 Choose a game at the main goal (Push and play!)
 - 2 Fencing system (customizable)
 - 3 Barrier-free entrance (optional)
 - 4 Impact sensitive polycarbonate LED panels
 - 5 Strong concrete base around the goals
 - 6 Rounded corners to keep the ball in play for a more active game
- ((p)) Internet connection for service, new games and updates

Lappset Toro and Its Unique Features

- **Impact-Sensitive Goals:** Toro's impact-sensitive goals can transform any area into an interactive experience, offering a special touch without occupying excessive space.
- **Dynamic Playset Design:** With four interactive goals placed along the sides of the sports arena, Toro encourages players to run freely, think tactically, and stay in constant motion, fostering a dynamic and engaging play environment.
- **Adaptability and Learning:** Players and athletes quickly adapt to new circumstances and have fun with a variety of games offered by Toro, enhancing skills in precision, tactics, fitness, reaction, and creativity. For instance, you can play Goal Switch, where you have to defend a color. After a goal is made, the position of the goal you are defending changes.
- **Accessible to All Players:** Designed to bring people outdoors, Toro motivates healthy exercise and fun. Its accessibility to all players through a barrier-free entrance and intuitive operation make it easy to understand and enjoy.
- **Variety of Games:** Toro offers a range of games with different levels and degrees of difficulty, catering to a diverse audience and ensuring a continually engaging experience.
- **Multi-Sports Arena:** Toro's design makes it suitable for various sports, offering a multi-sports arena that caters to different interests and preferences.

Lappset Fono

Fono is the world's first outdoor DJ booth where you can bring your own beats to the table by laying your phone on the sound-amplifying pads.

This innovative solution transforms public areas, skate parks, fitness zones, resorts, and family entertainment areas into cool, fun hangout spots. The Fono offers an interactive experience where you can not only hear the beats but also express them by DJing or dancing with friends. Catering to the

younger generation of music lovers, Fono plays the latest hits straight from their pockets, making it great for tweens and teens.

Transferring music directly from your smartphone to its platform allows aspiring stars to mix and edit like a pro. With classic sound effects for extra flair, Fono guarantees a hit for anyone wanting their musical identity heard! No smartphone? No problem – preloaded tracks ensure unexpected and totally fresh experiences.

- 1 High-class concrete base
 - 2 Chill tubes to hang out with friends
 - 3 Loudspeakers, covered with a stainless steel grille
 - 4 DJ mixing desk with real turning discs
- ((p)) Internet connection for service, new games and updates

Lappset Fono and Its Unique Features

- **Professional-Grade Mixing:** Designed in collaboration with DJ's, the Fono is a creative mixing console. It also features inward-facing speakers, directing the sound towards users and minimizing noise pollution, creating a more immersive and enjoyable experience without disturbing the surroundings.
- **Versatile Mixing Features:** The Fono has two sound amplifying pads where you can place your cell phone, providing users with the ability to mix multiple songs together and create a personalized experience. It provides innovative mixing options, such as Filter (alternately filtering out high and low tones), Loop (recording and repeating 10 seconds of music), Scratch (creating a scratching sound by moving the discs back and forth), Delay (creating a repeat with a small delay), and Crossfader (letting two

songs overflow into each other).

- **Social Gathering Spot:** The Fono serves as a positive gathering spot for young people seeking socialization. It offers a space for chatting, hanging out, exercising, and expressing creativity.
- **Excellent For Various Locations:** The Fono is suitable for various locations, including skate parks, outdoor fitness areas, high schools, and unconventional spots like train stations, making it adaptable to different environments.

Lappset Solutions

We believe play is for everyone!—At Lappset, play opens up a world of possibilities for children and adults alike. We believe that everyone should have equal access to play, exercise, and relaxation regardless of age or ability. Our playgrounds are designed to create a safe, fun environment for all users - from toddlers to older generations. With our expertise in diverse industries, we offer diverse indoor and outdoor

solutions that can help elevate your brand beyond competitors and provide the ultimate customer experience. Let us help you turn your vision into reality so that all can enjoy the joys of play!

Park & Rec—We craft innovative playground solutions to enhance the heart of communities. As a leading playground manufacturer catering to the US market, we are dedicated to creating Park & Rec spaces that inspire active lifestyles and foster a sense of community well-being.

Magnet Park, Cleveland, OH, USA

Rooftop Playground | Wilhelmina Children's Hospital, The Netherlands

Healthcare—Create an environment for play and exercise for all. Getting enough exercise positively impacts a person's physical and mental health. The right playground or exercise environment encourages people to move regularly, casually, while enjoying it; this is especially important for healthcare facilities. All healthcare institutions can play a significant role in promoting exercise.

Design Service

Are you looking for a unique way to take your outdoor/indoor experience to the next level? Well, we have got the perfect solution for you! Custom designs by Lappset are the ultimate way to create your own look and feel and truly make your playspace stand out.

With Lappset Interactive, you can customize every detail of your project, from the exterior down to even the content itself. That's right; we can create new games that are explicitly tailored to your preferences, giving your visitors a more enjoyable and immersive experience!

So why not add something totally different and fun to your project today? With Lappset Interactive, quality and convenience come standard - so what are you waiting for? Let us show you how much more interactive and enjoyable a playground experience can be with Lappset Interactive!

We are happy to assist you!

Campbell School of Innovation, CA

Campbell School District pioneered the installation of Lappset interactives in school playgrounds in the United States. In September 2018, at Campbell School of Innovation, a Sona and two Sutu units were installed and have been actively used every day since.

Credit goes to the design team, comprised of ANLA associates and AEDIS architects, for seamlessly integrating these interactives into the remarkable playground. In the summer of 2019, Rosemary Elementary School achieved another milestone by becoming the first school in the US to install a Toro.

Toro at Rosemary Elementary School, California 2019

Rio del Sol STEAM School, CA

The Lappset Memo at Rio del Sol STEAM K-8 school provides a great opportunity for students to learn and play while having fun. Play statistics clearly show the weekends as an obvious flatline as the site is not open to the public.

“The Lappset Memo is a fantastic addition to any playground and brings a new, fresh, and innovative dimension to outdoor playtime. The Lappset Memo allows students to learn through unstructured play, which helps them develop communication and negotiation skills between peers. My students love to play the various interactive games on the Lappset Memo because they are able to learn and have fun while exercising! I would highly recommend the Lappset Memo to any school or organization looking for a creative and dynamic game system that lets children learn via play!” - Rockey Koga, Second Grade Teacher, Rio del Sol STEAM School.

Miracle Park, Rock Hill, SC

Rock Hill wanted to create the most inclusive community space ever. And they delivered with Miracle Park. On September 18th, 2021, Rock Hill opened the first phase of its incredible new inclusive playground, ‘Miracle Park,’ with the Memo and Sona as key features in the overall playspace. The new park is a first of its kind within the US. It is now officially the newest member of the ‘Miracle League’ – a national sports league that started about 20 years ago as a baseball team for children with disabilities.

Wallaroo Park, TX

Woodforest's Wallaroo Park, inaugurated in the spring of 2018, proudly hosts the first inclusive play arch in the United States. Nestled in Houston's master-planned community in South Montgomery County, this pioneering facility integrates a Sona Interactive dance and play arch. The innovative structure utilizes sensor technology, measuring players' movements through sound and motion. Wallaroo Park stands as a testament to the seamless merger of interactive technology and outdoor play, creating a fully accessible park space designed for children of

all ages and abilities.

"The Sona in Woodforest has turned out to be one of our most popular parks. We have a large group of home-schooled children, and I have heard this is one of their weekly lessons for young grade school children. It is a popular evening spot after school and is filled on the weekends with all ages children. The community loves it, and they think having something so high-tech for the kids to play on is really neat."

- Faith Pitman – Director of Marketing of Woodforest

Legoland, NY

Legoland New York, a haven of imagination and excitement, comes alive through Lappset Creative Works' expertise. Since its grand opening in 2019, this captivating playground has charmed visitors. Amid diverse play areas catering to all interests, the Lappset Memo stands out.

These dynamic pillars blend physical activity with cognitive stimulation. Created exclusively for Legoland New York in collaboration with Lego, the Memo game immerses players in the roles of Ninjago characters Kai and Jay. In a spirited duel, participants experience a captivating and competitive game, testing their skills, reflexes, and strategy—all while honoring the spirit of the Spinjitzu legacy. The fusion of creativity and dynamic engagement makes Legoland New York a unique and thrilling destination for visitors of all ages.

Pitch 25 Houston, TX

Pitch 25 in Houston features the Sutu Interactive ball wall—a must for soccer fans! Operated by industry veterans, including Dynamo star Brian Ching, this unique venue, rooted in Ching's championship legacy, promises an exceptional blend of play and sports expertise for fans and enthusiasts alike.
